

SECURE YOUR HOME AND BELONGINGS

# COMPANY PROFILE

Since 1995, High Reserve Marketing established the GERE brand with proven standards of reliability and trust. Its product range represents a sophisticated composition of mechanical ingenuity and cutting-edge design innovation.

Prestigiously reputed as the ultimate lock and hardware maker, each product in this catalogue is highly reflective of GERE's brand mission. The brand mission is to provide you with superior manufacturing excellence and premium product quality.

GERE, a brand name well ingrained within the architectural imprint that have carved the path towards GERE INTERNATIONAL. It has been making waves in the overseas export market to South America and planning to expand to other countries worldwide.

GERE product range such as the well-built padlocks are well recognised by the United Kingdom Accreditation Service (UKAS) under the BS EN 12320:2012, UK Standard, CEN European Standard BS EN 12320:2012 and TUV BS EN ISO9227:2007, BS EN 1670:2007, INTERTEK BS EN 1670:2007/2009/AC. GERE products has obtained ANSI BHMA 156.2 from SIRIM QAS International, a rare public endorsement by an independent certification agency for a Malaysia brand.

# NEXT LEVEL OF HOME SECURITY

GERE's superior and innovative product range have achieved many certifications from SIRIM QAS International and other certification bodies:

YEAR	PRODUCT	STANDARD	CERTIFICATION
2007	GERE Padlock CL939 & CL99	BS EN 12320:2001	UKAS
2010	GERE Cylindrical Knobset, Tubular Knobset	ANSI/BHMA A 156.2:2003	SIRIM QAS International
2010	GERE Mortise Lock	ANSI/BHMA A 156.13:2005	SIRIM QAS International
2010	GERE Handle Set & DeadBolt	ANSI/BHMA A 156.5:2001	SIRIM QAS International
2012	GERE Padlock	BS EN ISO9227:2007 BS EN 1670:2007	Technischer Überwachungsverein (TUV)
2013	GERE Padlock	BS EN 12320:2012	SIRIM QAS International
2013	GERE Padlock	BS EN 1670:2007/2009/AC	INTERTEK
2013	GERE Mortise Lock	BS EN 12209:2003	SIRIM QAS International (Fire Rated Door Compliance)
2013	GERE Hinge	BS EN 1935:2002	SIRIM QAS International (Fire Rated Door Compliance)
2015	GERE Door Closer	BS EN 1154:1997	SIRIM QAS International (Fire Rated Door Compliance)
2015	GERE Floor Spring	BS EN 1154:1997	SIRIM QAS International (Fire Rated Door Compliance)
2015	GERE Padlock	BS EN 12320:2012	UKAS

GERE Padlock is the first and the only padlock in Malaysia to achieve SIRIM QAS International's certification in year 2013.

In year 2013, High Reserve Marketing and GERE have also attained the prestigious Keris Award (Asia Pacific International Honesty Enterprise and Honesty Product) respectively

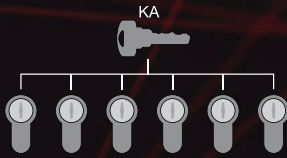

As for the Fire Rated Door, GEREdor has attained the 60 minutes Single Leaf Composite Fire Resistant Door with EG Steel Door Frame. Tested by SIRIM QAS International Sdn. Bhd. Under MS 1073:Part 3:1996 with latest (Amd.1:2003) Specification for Fire Resistant Doorset in year 2015.

Being the pioneer in this industry, it is GERE's vision to have that unyielding mission to continuous pursue the latest in design and material innovative advancement in order to continually evolve its product range to new heights of distinction.

Our main mission is our customers. GERE's brand mission is upholding our customers' continual trust and unwavering support.

# CYLINDERS - KEY SYSTEMS

## KEY ALIKE SYSTEM

KA

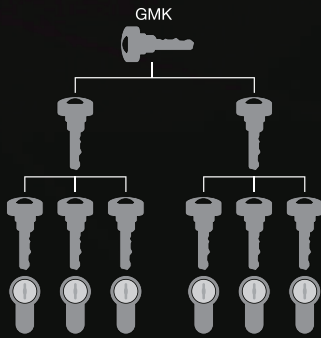

All the cylinders have the same differ and be opened only by one key.

## MASTER KEY SYSTEM

MK

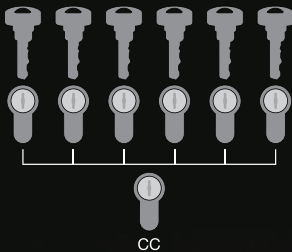

Every cylinder can be opened by its own key which cannot open any other cylinder of the system. All the cylinders can be opened by MK management key.

## GRAND MASTER KEY SYSTEM

GMK

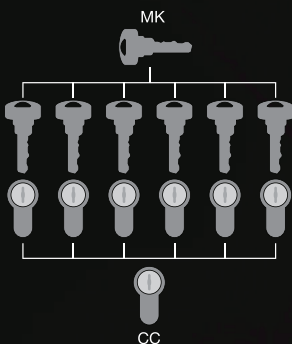

Same as the management key system but in two or more groups. Every group of cylinders can be opened by its own service key. All the cylinders of the system can be opened by the GMK grand management key.

## CENTRAL CYLINDER SYSTEM

CC

Every cylinder has its own key which cannot open any other cylinder of the system. All the keys of the system can open the cylinder of the central lock.

## CENTRAL CYLINDER SYSTEM AND MASTER KEY

CCMK

Every cylinder has its own key which cannot open any other cylinder of the system, except the central system. All the cylinders of the system can be opened by the MK management key.

## CONSTRUCTION KEYED SYSTEM

CMK

A system where it is necessary for contractors to gain entry to a building during construction but to prevent entry by the same contractors after the building has been occupied or handed over. The system makes it possible to change from construction keying to normal keying.

### ENTRANCE

1

- With latch bolt and deadbolt
- Latch bolt is operated by both lever and cylinder
- Deadbolt is operated by cylinder

### STOREROOM

4

- With only latch bolt
- External lever is always rigid, latch bolt is operated by using key outside
- Internal lever is always fine

### ENTRANCE WITH ROLLER

1B

- Deadbolt operated with profile cylinder
- Flexible ball catch to hold door

### DEAD LATCH

6

- With only deadbolt
- Deadbolt is operated by using cylinder
- No lever handle

### PRIVACY

2

- With latch bolt and deadbolt, no key but with indicator
- Inside is locked by operating the indicator thumb turn
- Outside can use coin to unlock under emergency circumstances

### PANIC FUNCTION

1A

- For escape door function
- Door can be opened by activating the lever and locked with the key (from inside)
- To enter from outside, opened and locked with the key and lever

### PASSAGE

3

- With only latch bolt, no cylinder
- Latch bolt is operated by both internal and external lever

### CLASSROOM

7

- With latch bolt, external lever lock or unlocked by key or tumbturn profile
- Latch bolt is operated by both lever and cylinder
- Internal always free providing emergency exit

- Digit 1 - category of use  
Grade 4 describes closing door from 180 degree open
- Digit 2 - Durability  
Grade 8 describes 500,000 cycles test
- Digit 3 - Door Mass  
Identify the closing power of the closer by max door width and weight
- Digit 4 - Sustainability for use in fire door (grade 0 - 1)
- Digit 5 - Safety ( grade 0 - 1)  
Grade 1 identify the closer is hazard-free
- Digit 6 - Corrosion Resistance ( Grade 0 to 4)  
Grade 4 describes very high Resistance

CERTIFIED TO: BS EN 1154 : 1997  
Certification No: PC001791

**BS EN 1154 : 1997**  
Passed durability test  
500,000 cycles.
